

I benefit from listening to XM Satellite Radio and its traffic and weather channels. I feel satellite radio provides variety and quality that are not available elsewhere in such a comprehensive manner. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.

Thank you.

Michelle Duprey
